The base for our ointments is Shea Butter. Shea Butter consistency may change with each batch. Thus one batch may be creamy smooth and the next may have a grainy texture.

Temperatures affect our ointments in that during the winter the ointments harden and in the warmer season they may soften or even liquefy. When customers express their concerns over these issues inform them that the ointments can be softened up by keeping it in a warm area or visa versa. Our ointments are made the same way with the same ingredients by strict standards.

Retailers under no circumstance are to adulterate, add to or change the ingredients of the ointments produced by Gut' Shu wu Inc.

Only Gut' Shu wu Inc. is authorized to assign authorized retailers.
